Kırıkkale University/ Electrical and Electronics Engineering

2009- 2014

MY GAME PROJECTS

Bami The Bird (3D Endless Game) [Game Link]

The Game is a 3D arcade-style endless flying game that challenges players to collect gems and avoid obstacles in a stylized world. Version control is managed with GitHub. The game was released on 11.04.2025 on the Google Play Store.

Features:

• Simple and intuitive controls

• Global leaderboard support

• Saving players username via Unity Cloud.

• Rewarded and banner ads (Unity LevelPlay)

• Endless level design with increasing difficulty
